From inside the vehicle, all the doors can be locked by pressing either the driver or passenger lock lever (**1**).

Each rear door can be individually locked by pressing the appropriate locking lever.

The vehicle will not lock automatically.

To lock the vehicle press the keyless locking button (arrowed) on the door handle once. The hazard warning lamps will flash once to confirm. In some markets an audible warning will sound.

If the alarm has been triggered it can be deactivated by pressing the Smart Key unlock button, or by positioning the Smart Key underneath the steering column (see **77, IF THE ENGINE FAILS TO START**).
