

FUEL FILLER

WARNING

When refueling ensure that all windows, doors, and sunroof are fully closed, particularly if young children or animals are in the vehicle.

WARNING

Do not attempt to fill the tank to its maximum capacity. If the vehicle is to be parked on a slope, in direct sunlight or high ambient temperature, expansion of the fuel could cause spillage.

NOTICE

Check the fuel pump information carefully, to ensure that you are putting the correct fuel into the vehicle.

NOTICE

If the vehicle is filled with incorrect fuel it is essential that you seek qualified assistance before you start the engine.

Filling station pumps are equipped with automatic cut-off sensing to avoid fuel spillage. Fill the tank slowly until the filler nozzle automatically cuts off the supply. Do not attempt to fill the tank beyond this point.

FUEL TANK CAPACITY

Avoid the risk of running out of fuel and never intentionally drive the vehicle when the fuel gauge indicates that the tank is empty. When refueling your vehicle after the fuel gauge reads empty, you may not be able to add the fuel quantity shown as there will be a small reserve remaining in the tank. See **199, CAPACITIES**.

FUEL SPECIFICATION

Premium unleaded gasoline
Unleaded 91 octane or higher
