

# Information displays

## TRIP COMPUTER

E83070

A short press (two seconds or less) or a series of short presses of the **i** button will change the trip computer display.

The options available are :-

- Approximate maximum range on current fuel.
- Average fuel consumption.
- Average speed.
- Review active warning messages.
- Blank trip computer screen (displays outside temperature).
- Trip distance.

To reset the computer values to zero, press and hold the **i** button for two seconds.

To reset the fuel consumption figure, press and hold the **i** button until the display clears.

## INFORMATION MESSAGES

### Main message centre

The main message centre is used to convey information, warnings, and critical warning messages to the driver.

### Critical warning messages

#### CAUTION

**!** Do not ignore critical warning messages, take appropriate action immediately. Failure to do so may result in serious damage to the vehicle.

Critical warning messages are accompanied by an audible warning, and the message text may have the handbook symbol next to it. These messages are displayed continuously whilst the ignition is on.

# Information displays

---

## Warnings and information messages

### CAUTION

Do not ignore warning messages, take appropriate action as soon as possible. Failure to do so may result in serious damage to the vehicle.

---

When displayed, warning messages are accompanied by an audible warning. These messages are displayed for approximately three seconds. The warning messages will be displayed when applicable, and also when the ignition is turned on, and off.

If the **i** symbol is displayed, there are current warning messages waiting to be reviewed. To review the warning messages press the **i** button repeatedly until the list of messages is displayed. The message centre will then cycle through the messages until the **i** button is pressed again.

**Note:** Messages are displayed in order of importance, with critical warning messages being the highest priority.

## Messages

For information regarding the individual messages, their meanings, and any action required, please refer to the relevant section within this handbook.
