Notes	1. Vehicles/Tyres may not be available in or appropriate for all countries included in a Group 2. Markets indicated above in Red are appropriate for winter tyres

Notes for Aftermarket Winter Tyres table opposite:	
Alpine non-studded tyres are appropriate for use in relatively mild winter conditions where roads are wet, dry or snow & ice covered as typical of Central Europe & regions of North America (Alpine tyres are also called 'Central European' or 'Performance Winter').	
Studded tyres are appropriate for use only in severe winter conditions on snow or ice covered surfaces as typical of Northern Europe, Russia & regions of North America where legislation permits their use.	
Studless tyres are appropriate for use only in severe winter conditions as typical of Northern Europe, Russia, Japan, China, Korea & regions of North America, especially where Studded tyres are prohibited. (Studless tyres are also called 'Nordic Studless' or 'Friction type').
