Telephone (standard)

SELECTING PHONE MODE

LAN2588

Either press the **Phone** button on the audio unit or press the **Make/Answer** button on the steering wheel. Use the numeric keypad on the audio unit to dial the number.

DIALLING

LAN2590

Pressing the left navigation button when the number screen has no digits cancels the screen and returns to the previous screen displayed. A short press of the left navigation button when digits are present deletes each digit individually. A long press of the left navigation button when there are digits present deletes all digits.

When the full telephone number has been entered, press **OK** to dial number.

ANSWERING/REJECTING CALLS

Answer incoming call

Press the **Make/Answer** button on the steering wheel to answer the incoming call.

Reject incoming call

Press the **End** button on the steering wheel to reject the incoming call.

End call

Press the **End** button on the steering wheel to terminate the call.
