WARNINGS

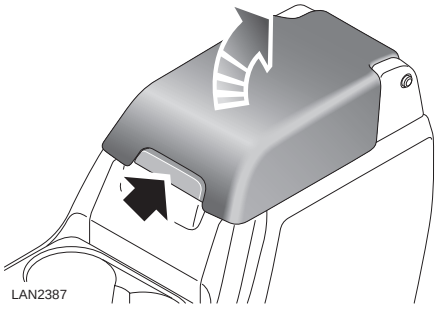

The cup and bottle holders should only be used for soft containers. Containers which are hard (cans, metal, ceramic, hard plastic etc.) can cause serious injury or death if the vehicle is involved in an accident, or subject to sudden braking or direction change.

Do not drink or use the cup holders when driving. Doing so can affect concentration, which may result in loss of control.

Do not carry open drinks containers. Hot liquids can cause serious injury when spilled and may damage the vehicle.

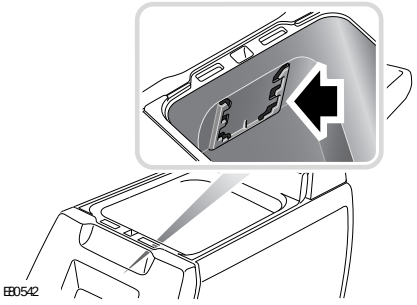

Note: *The inner cores of the cup holders can be removed for cleaning or to make a holder for a larger drinks container.*
