INTERIOR MIRROR

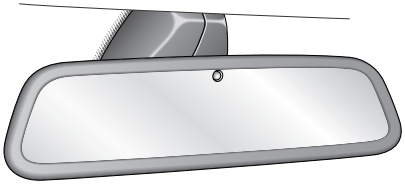

Manual mirror

E80447

Move the lever (forwards or backwards) to counteract the glare from a following vehicle's headlamps.

Automatic dimming mirror

E81427

Some rear-view mirrors will automatically darken to counteract the glare from the headlamps of a following vehicle. This feature is temporarily switched off when reverse gear is selected.

Note: *If the rear screen is obscured, or the light falling on the mirror is otherwise obstructed, the automatic dimming may not operate correctly.*
