

# Windows and mirrors

---

## INTERIOR MIRROR

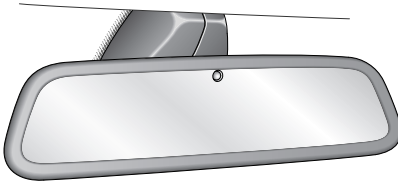

### Manual mirror

E80447

Move the lever (forwards or backwards) to counteract the glare from a following vehicle's headlamps.

### Automatic dimming mirror

E81427

Some rear-view mirrors will automatically darken to counteract the glare from the headlamps of a following vehicle. This feature is temporarily switched off when reverse gear is selected.

**Note:** If the rear screen is obscured, or the light falling on the mirror is otherwise obstructed, the automatic dimming may not operate correctly.
