Traffic information during CD play

When traffic information is switched on, CD play will be interrupted by information broadcasts automatically, as and when they occur and **Traffic announcement** will appear in the display.

At the end of the broadcast, CD play will resume from the point on the disc at which CD play was interrupted.

Traffic announcement volume

Traffic announcements interrupt normal broadcasts at a preset minimum level that is usually louder than normal listening volumes. To adjust the preset volume, use the volume control to make the necessary adjustment during an incoming TA broadcast. The display will show the level selected.

Cancelling an announcement

To cancel an announcement briefly press the **TA** button.

Note: *If **TA** is pressed at any other time, all announcements will be switched off.*

Switching off traffic information

Briefly press the **TA** button (the **TA** indicator will disappear from the right hand side of the display). This action will prevent traffic information broadcasts from being received until the feature is reselected.

NEWS INFORMATION

Selecting news information

LAN2586

Normal reception can be interrupted to broadcast news bulletins from stations on the FM waveband or Radio Data System (RDS) and Enhanced Other Network (EON) linked stations, in the same way that traffic information is provided.

Press the **MENU** button and select **Audio,** scroll to **NEWS** and turn on or off with the **OK** button. Press the **MENU** button to return.

Note: *Both traffic and news information can be selected at the same time. However, the radio will always give priority to traffic information.*

News information during CD play

When news information is switched on, CD play will be interrupted by information broadcasts automatically, as and when they occur and **NEWS** will alternately appear in the display.

At the end of the broadcast, CD play will resume from the point on the disc at which CD play was interrupted.
