TELEPHONE VOICE CONTROL

WARNING

Do not use the voice control for placing emergency calls. Your voice and tone could be affected by stressful situations as a result of which, the process of establishing the telephone connection could be unnecessarily delayed.

Voice control enables you to activate important functions of your telephone system, without the need to operate the controls manually. This enables you to concentrate fully on driving the vehicle.

A number of voice commands are available and, with a little experience, you will find them easy and convenient to use. You are guided through these dialogues by announcements or questions.

Please familiarise yourself with the functions of your telephone system, before using voice control.

Note: *The voice recognition directory is separate from your phone handset SIM card address book/phonebook.*

For general information about voice control. See **USING VOICE CONTROL** (page 334).
