

Maintenance

GENERAL INFORMATION

Regular systematic maintenance is the key to ensuring the reliability and efficiency of your vehicle.

Maintenance is the owner's responsibility and you must ensure that owner maintenance operations, oil services, inspections and brake fluid and coolant changes are carried out when required and according to the manufacturer's recommendations.

The routine maintenance requirements for your vehicle are shown in the Service Portfolio book. Most of this necessary maintenance requires specialised knowledge and equipment, and should be entrusted to a Land Rover Dealer/Authorised Repairer.

Service Portfolio

The Service Portfolio book includes a Service Record section, which allows for a recording of all the servicing and inspections that are carried out on the vehicle. This section of the book also has an area for brake fluid changes to be recorded.

Ensure your service provider signs and stamps the book after each service and inspection.

Owner Maintenance

CAUTION

 Any significant or sudden drop in fluid levels, or uneven tyre wear, should be reported to a qualified technician without delay.

In addition to the routine maintenance, a number of simple checks must be carried out more frequently. These checks are detailed in the following sections.

Daily checks

- Operation of lamps, horn, direction indicators, wipers, washers and warning indicators.
- Operation of seat belts and brakes.
- Look for fluid deposits underneath the vehicle that might indicate a leak.

Weekly checks

- Engine oil level. See **ENGINE OIL CHECK (2.7L DIESEL AND V6 PETROL)** (page 210).
- Engine coolant check. See **ENGINE COOLANT CHECK** (page 215).
- Brake fluid level. See **BRAKE FLUID CHECK** (page 216).
- Power steering fluid level. See **POWER STEERING FLUID CHECK** (page 218).
- Screen washer fluid level. See **WASHER FLUID CHECK** (page 219).
- Tyre pressures and condition.
- Operate air conditioning.

Note: *The engine oil level must be checked more frequently if the vehicle is driven for long periods at high speeds.*
