

Your warranty

Paint Surface Warranty and Corrosion Protection Warranty

- Make sure that paint and bodywork is maintained with regular cleaning in accordance with Land Rover's recommendations.
- Make sure the body panels are examined annually by a Land Rover Authorised Repairer and that this is recorded in your Service Portfolio. This examination is free of charge only when carried out at the time of a main service.
- Make sure you present your vehicle to a Land Rover Authorised Repairer for any warranty repair as soon as practicable after a defect is detected. This will minimize the effect a defect has on your vehicle and the nature of the repair needed.

EMISSION DESIGN AND DEFECT WARRANTY

Applicability – Korea, Norway, Sweden, Switzerland and Taiwan.

Warranty statement

Land Rover warrants that its vehicles are designed, built and equipped so as to conform at the time of sale with all emission standards applicable at the time of manufacture and are free from defects in materials and workmanship that could cause them not to meet those standards.

During the Emission Control System Warranty period, if the failure of any part covered by this Emission Control System Warranty is not the result of lack of maintenance or of misuse of the vehicle, it will be repaired, replaced, or adjusted without charge during the warranty period.

Period of Cover

The period of cover commences the day the vehicle is handed over to the first customer. This Warranty is specific to the country in which the vehicle is sold. Your Land Rover Dealer will be able to advise you on the length of cover and the items covered under this Warranty.

Note: *The warranty period for dealer demonstrator vehicles starts on the day that the vehicle is put into service as a demonstrator (not the day that the vehicle is first sold retail).*
