

Your warranty

CORROSION PROTECTION WARRANTY

Should any part of the bodywork of the vehicle be perforated by rust corrosion, the panel(s) affected by the perforation will be repaired or replaced by any Land Rover Authorised Repairer, completely free of charge, regardless of any change in vehicle ownership.

Note: The term “perforation” means a hole that penetrates through the bodywork caused by corrosion from the inside or underside as a result of faulty manufacture or materials.

For the purpose of this Warranty, bodywork is defined as metal panels, including doors, bonnet, engine and boot compartments, wings, sills, scuttles, roof, floor panel, frames and chassis members, but excluding attachments such as bright trim, bumpers, mouldings, hinges and road wheels.

Duration of the warranty

For details of the Corrosion Protection Warranty, see page 4.

Accident damage repair

In the event of the vehicle requiring body repairs due to accident damage, your Land Rover Authorised Repairer can ensure that the repairs are carried out by a Land Rover Approved Body Repair Centre, using only Land Rover approved parts, materials and repair techniques. This will ensure that warranty cover will continue on the repaired body sections for the remaining period of the Corrosion Protection Warranty.

OWNER'S RESPONSIBILITY

Your Owner's Handbook and Service Portfolio describe the proper care and use of your vehicle. Proper maintenance and use guard against major repair expenses resulting from misuse, neglect or inadequate maintenance, and may help increase the value you receive when you sell or trade your vehicle.

Vehicle Warranty

- Make sure that all of the required maintenance is performed and that the materials used meet Land Rover engineering specifications.

Note: Failure to perform the required maintenance promptly and in accordance with Land Rover's specified service intervals will invalidate warranty coverage on affected parts.

- Make sure you present your vehicle to a Land Rover Authorised Repairer for any warranty repair as soon as practicable after a defect is detected. This will minimise the effect a defect has on your vehicle and the nature of the repair needed.

Note: Your Land Rover Authorised Repairer has technicians who are trained and equipped to perform the required maintenance on your vehicle using genuine Land Rover parts to keep your vehicle operating to optimum levels.

- Make sure that receipts for completed maintenance work are retained with the vehicle and confirmation of maintenance work is always recorded in your Service Portfolio.
