MAINTENANCE SERVICE RECOMMENDATIONS

Climatic and operating conditions affect maintenance requirements to a large extent. Therefore, the determination of maintenance intervals must be left to the good judgment of the owner or the advice of an authorized Land Rover retailer.

Vehicles operating under arduous conditions – frequent short trips, off-road use, trailer towing and frequent starts below freezing – will require more frequent servicing. Under these circumstances, the maintenance intervals should be cut in half. For vehicles driven low kilometers monthly, the maintenance intervals need not be as frequent.

Performance of recommended maintenance is not required to retain eligibility for the emission warranty or manufacturer recalls.

Record of Retailer Service

The undersigned retailer certifies that on the date listed, this vehicle was serviced as per the maintenance schedule, and any conditions covered by a Land Rover warranty were repaired or rectified.
