

WHEEL SIZE AND TYPE

Type	Size
Alloy wheels	8J x 19
Road wheel nut torque	140 Nm (103 lbf/ft)

TYRE SPECIFICATION

Wheel size	Tyre	Snow Chain Fitment	
		Front	Rear
8J x 19	255/55 R19 111 V Extra load Goodyear Wrangler HP. All weather run on flat technology	N	Y

TYRE PRESSURES

The tyres fitted to this vehicle provide a run on flat capability. This will enable the vehicle to be driven in a controlled manner with deflated tyres, for a limited period.

If the tyre has been used deflated in a run flat capability the tyre must be replaced.

Loading condition		Pressure - kPa (psi)
All vehicle load conditions	Front	240 (35)
	Rear	320 (47)

It is important that tyres be properly inflated. Air pressure enables a tyre to support the vehicle load, so proper inflation is critical. Failure to maintain correct inflation pressures may result in rapid and uneven tread wear, erratic vehicle handling and excessive build-up, which may result in tyre failure.
