

BALLISTIC PROTECTION DOORS

Due to the ballistic protection options used on your vehicle, the weight of the doors has increased considerably. To accommodate this increase in weight, the hinges, spindles and door stop mechanisms have been reinforced.

Do not open the vehicle doors until the vehicle has come to a complete rest. The combination of vehicle movement and the weight of the doors, may cause damage to the vehicle and may also injure passengers or pedestrians.

VEHICLE MAXIMUM SPEED

The maximum speed of this vehicle is limited to 100 mph (160 km/h).

TOWING

This vehicle is not approved for towing.

Do not tow with this vehicle.

ROOF RACK

Do not fit a roof rack to this vehicle.

OFF-ROAD AND DRIVING DYNAMICS

The weight of the armour added to the B6 Discovery, results in the vehicle having a greater mass and higher centre of gravity than the standard vehicle. As a result the performance and dynamics of the vehicle are quite different and the off-road capability of the vehicle is reduced. Drivers are advised to ensure that they are fully aware of the vehicle's dynamic and off road capabilities and should drive appropriately.

Appropriate driver training should be considered before entering any potentially hostile situation.

ACCESSORY MATS

Accessory rubber mats must not be fitted in either the left hand or right hand footwells. A bespoke tailored carpet is available from Land Rover to fit into the front footwells.

SPLIT CHARGE SYSTEM

The split charge system (if fitted) incorporates an additional battery which is charged by the vehicle main electrical system. No driver action is required.

The split charge system provides additional electrical capacity for accessories.

Note: Always consult a Land Rover Dealer/ Authorised Repairer before installing any accessory parts or equipment.

ALARM SYSTEM

There are a number of additional security features, some of which are selectable options. In order to ensure maximum security, you are strongly advised to gain a full understanding of the features and alternatives available by reading this supplement in conjunction with the Owner's Handbook.

AIRBAGS

- This vehicle is **not** equipped with curtain or side airbags.
- A passenger airbag disable switch is not fitted to this vehicle. It is not possible to disable the passenger airbag.

Note: *Steering wheel and fascia airbags continue to be operational.*

Child seats must not be fitted in the front passenger seat. Children should not be carried in the front passenger seat. Rearward facing child restraints should not be fitted in the front passenger seat. An inflating airbag could impact with the seat and cause serious injury.

Children should travel in the rear of the vehicle at all times in a child or infant restraint system that is secured in a rear seating position.

For occupant protection, seat belts must be worn.

ELECTRIC WINDOWS

Electric windows are an optional fit in this armoured vehicle. Due to the armoured protection, electric windows will lower only a short distance.

Anti-trap is not a feature of this vehicle. Ensure that occupants are clear of the window before raising it.

AUTO LAMPS

Auto lamps and auto high beam functions do not operate on this vehicle.

RAIN SENSOR ACTIVATED WIPERS

The rain sensor activated wipers do not operate on this vehicle.

SELECTING OFF-ROAD HEIGHT

Off-road height can be selected by pressing up on the raise/lower switch at any speed up to 20 km/h (12mph). If selected, and the speed exceeds 30 km/h (18mph), a warning will appear in the message centre and the system will return to normal height.

TYRE PRESSURE MONITORING (TPM) SYSTEM

In markets where Tyre Pressure Monitoring (TPM) System is not available the vehicle will be fitted with tyre pressure monitoring valve caps. The valve caps give a visible warning if the tyre pressure has dropped below the correct pressure.
