DAB DISPLAYED MESSAGES

'**Searching....**' is displayed when the radio is tuning itself to the correct ensemble. You will see this for a few seconds during some preset changes, and when seeking up or down to another ensemble.

If ServiceLink is enabled and no alternative signal can be found, 'Searching....' may show for a long period of time since in this mode the radio will continue to search round all the bands automatically until you command it to go to a different service or switch off ServiceLink.

'**No Reception**' is displayed when ServiceLink is not enabled and you have selected a service which cannot be received in the vehicle's current position. Select an alternative service, or search for an alternative ensemble.

'**Serv00**', '**Serv01**' etc. may be shown when the radio can detect signals from an ensemble but cannot decode the service names. These are default labels to replace the non-receivable service names. In these cases the audio is generally impossible to receive from the vehicle's current location. Select an alternative service, or search for an alternative ensemble.
