## DAB DISPLAYED MESSAGES

'Searching....' is displayed when the radio is tuning itself to the correct ensemble. You will see this for a few seconds during some preset changes, and when seeking up or down to another ensemble.

If ServiceLink is enabled and no alternative signal can be found, 'Searching....' may show for a long period of time since in this mode the radio will continue to search round all the bands automatically until you command it to go to a different service or switch off ServiceLink.

'**No Reception**' is displayed when ServiceLink is not enabled and you have selected a service which cannot be received in the vehicle's current position. Select an alternative service, or search for an alternative ensemble.

'Serv00', 'Serv01' etc. may be shown when the radio can detect signals from an ensemble but cannot decode the service names. These are default labels to replace the non-receivable service names. In these cases the audio is generally impossible to receive from the vehicle's current location. Select an alternative service, or search for an alternative ensemble.
