

PAIRING AND CONNECTING USING THE MOBILE PHONE

Note: *The process of pairing and connecting your phone with the vehicle using your mobile phone, will vary depending on the type of mobile phone used.*

1. Switch the ignition on and ensure that the audio system is active and that no other phone is currently connected to the vehicle's Bluetooth® system.
2. Using the mobile phone, search for Bluetooth® devices. On some phones, this is referred to as a new paired device. See your phone's operating instructions for further information.
3. When the vehicle's Bluetooth® system is discovered (named Range Rover Evoque), select this device from the list.
4. When prompted, enter the Bluetooth® PIN (Personal Identification Number) into the mobile phone. This four digit number is randomly generated by the vehicle system and will be displayed on the screen.
5. Once your phone is paired and connected to the system, it can dock automatically. If it does not automatically dock, you will have to connect manually with the Land Rover Bluetooth® system, via the mobile phone. Please consult the mobile phone's instructions for further information.

Note: *Some mobile phones require the Bluetooth® pairing to be set as 'authorised' or 'trusted' in order to automatically connect. Please refer to your phone's operating instructions for further information.*

CALL VOLUME

The phone call volume is operated by the audio system's volume control.

If the audio system is in use when a phone call is active, the audio source is suppressed for the duration of the call. Parking aid warnings are not suppressed.

ANSWERING/REJECTING/ENDING CALLS

1. Press **PHONE (1)** or the steering wheel control **(2)** to answer an incoming call.
2. To reject or end a call, press the **PHONE (1)** button or the steering wheel control **(3)**.

DIALLING

1. With **PHONE (1)** or the steering wheel control **(2)** selected, use the numeric keypad to enter a telephone number.
2. Press **OK** or the steering wheel control **(3)** to dial the number.

If the audio system is in use when a phone call is active, the audio source is suppressed for the duration of the call. Parking aid warnings are not suppressed.
