2. A menu will appear. Select **Change phone**.
3. Identify and select your phone from the displayed list.

DIALLING

Once your phone is connected to the vehicle's system, Digit Dial is the default screen in Phone mode.

Using the on-screen keypad, enter the required number and touch the connect icon to send.

Note: *When entering a number, you can change the phone number shown on the touch screen using the* ***Delete*** *button. A momentary touch erases a single digit, a long touch erases the complete number.*

PHONEBOOK

Contacts stored in the memory of a paired phone can be automatically downloaded to the vehicle's phonebook each time the phone is connected to the system. See **143, TELEPHONE COMPATIBILITY**.

Certain mobile phones store the phonebook in two different areas, the SIM card and the phone memory. The vehicle system will access only those numbers stored in the phone memory.

To access contacts from the phonebook:

1. From the Phone menu, select **Phonebook**.
2. Using the keyboard, select the letter you wish to search under.
3. Select **List** to view the phonebook.
