Note: *A tether anchorage is provided for the centre seat position. Do not use this anchor position with an ISOFIX child seat.*

ATTACHING TETHER ANCHORAGE STRAPS

1. Install the child restraint securely in one of the rear seating positions.
2. Pass the tether strap over the seat back and beneath the head restraint.
3. Attach the tether strap hook to the tether anchor point on the back of the seat. Ensure that the tether strap hook is facing the correct way.
4. Tighten the tether strap according to the manufacturer's instructions.
