

**Keep your hands and clothing away from drive belts, pulleys and fans. Some fans may continue to operate after the engine has stopped. They may also start to operate after the engine is turned off and continue operating for up to 10 minutes.**

**Remove metal wrist bands and jewellery, before working in the engine compartment.**

**Do not touch electrical leads or components while the engine is running, or with the starter switch turned on.**

**Do not allow tools or metal parts of the vehicle to make contact with the battery leads or terminals.**

## FUEL SYSTEM

**Under no circumstances should any part of the fuel system be dismantled or replaced by anyone other than a suitably qualified vehicle technician.**

**Ensure sparks and naked lights are kept away from the engine compartment.**

**Wear protective clothing, including, where practicable, gloves made from an impervious material.**

## EMISSION CONTROL SYSTEM

Land Rover vehicles are fitted with emission and evaporative control systems. In many countries it is unlawful to tamper, modify or replace such equipment and legal penalties apply if the laws are flouted.

Land Rover Dealers/Authorised Repairers are properly equipped to perform repairs and to maintain these systems.

**Exhaust fumes contain poisonous substances which can cause unconsciousness and may even be fatal.**

- Do not inhale exhaust gases.
- Do not start or leave the engine running in an enclosed unventilated area.
- Do not drive the vehicle with the tailgate open.
- Do not modify the exhaust system.
- Exhaust leaks should be repaired immediately.
- If exhaust fumes are thought to be entering the vehicle, have it investigated immediately.

**Note:** *Running out of fuel can result in a misfire. This can cause damage to the emission control system.*

## SERVICE DATA RECORDING

Service data recorders in your vehicle are capable of collecting and storing diagnostic information about your vehicle. This potentially includes information about the performance or status of various systems and modules in the vehicle such as engine, throttle, steering or brakes.

In order to properly diagnose and service your vehicle, Land Rover and service and repair facilities may access vehicle diagnostic information through a direct connection to your vehicle.
