

Entering the vehicle

UNLOCKING THE VEHICLE

SL2286

To prevent accidental operation,
never leave the Smart Key in the
vehicle if children or animals are also
left in the vehicle.

Note: The operational range of the Smart Key
will vary considerably depending on
atmospheric conditions and interference from
other transmitting devices.

Note: If any door or the tailgate is unlocked 10 times within a short period, the latch is disabled for approximately 1 minute.

The vehicle is supplied with two Smart Keys. The Smart Keys act as remote controls for the locking and alarm system and allow the vehicle to be locked, unlocked and driven without the use of a conventional key. See 7, **KEYLESS**

ENTRY, 14, KEYLESS LOCKING and 80,

ENGINE STARTING. Each Smart Key also has an emergency key housed in a slide out compartment.

1. Lock:

- Press to secure the vehicle. The vehicle can be Single or Double locked. See 12, **SINGLE LOCKING**. See 12, **DOUBLE LOCKING**.

See also 13, **GLOBAL CLOSING**.

2. Unlock:

- Press briefly to unlock the vehicle and deactivate the alarm. See 6, **SINGLE-POINT/MULTI-POINT ENTRY**.

The hazard warning lamps will flash twice to indicate that the vehicle is unlocked and the alarm has been deactivated. The interior lamps and puddle lamps will illuminate to assist entry to the vehicle.

See also 6, **GLOBAL OPENING**.

Power fold mirrors will unfold (if enabled).

3. Tailgate release:

- Press briefly to open the tailgate. If the vehicle is locked and armed, the security system will remain active while the tailgate is open, but intrusion and inclination sensing systems will be disabled.

When closing the tailgate again, if the vehicle is already locked and armed, the hazard warning lamps will flash after a few seconds to confirm the full alarm system has been reactivated. There will also be an audible sound if the vehicle was double locked. See 8, **OPERATING THE TAILGATE**.

Ensure that the Smart Key does not remain in the vehicle prior to closure. If the vehicle is in an area of localised Radio Frequency (RF) interference or the Smart Key is shielded by metal objects, the vehicle may close and lock with no means of opening again.

4. Panic alarm:

- Press and hold for three seconds (or press three times within three seconds) to activate the horn and the hazard lamps.
- Once active for more than five seconds, the alarm can be cancelled by pressing the button and holding for three seconds (or pressing three times within three seconds).
- The emergency alarm will also be cancelled if a valid Smart Key is present when the START/STOP button is pressed.

5. Approach illumination:

- When approaching the vehicle during darkness, press to switch on the approach illumination. Press again to turn the approach lamps off.
