SETTING THE VISIBILITY

The audio system must be set to 'visible' to enable the compatible phone to find it during the pairing process.

1. Press and hold **AUDIO/SETUP** to open the setup menu.
2. Select **BLUETOOTH**.
3. Select **VISIBLE M**.
4. Select **VISI M ON** or **VISI M OFF** to select between visible and invisible respectively.

   Note: *The default setting is* **VISI M ON** *(visible).*

PAIRING AND CONNECTING USING THE PHONE

Note: *Up to three devices can be stored. If a device is already connected, disconnect it before pairing additional devices. Refer to the device manufacturer's instructions for further information.*

1. Search for the audio system using the telephone. Refer to the telephone manufacturer's instructions for further information.
2. Select **PAIR YES** using the menu select control. Once connected the system will return to the previous selected audio source.

   Note: *Certain telephones may ask for a 4 digit Personal Identification Number (PIN). In this case, enter 4 zeros ('0000').*

Note: *The telephone will re-pair automatically whenever the audio system is switched on. If it fails to reconnect, follow the pairing procedure to pair the telephone manually.*

PAIRING AND CONNECTING USING THE AUDIO SYSTEM

1. Press and hold **AUDIO/SETUP** to open the setup menu.
2. Select **BLUETOOTH**.
3. Select **SEARCH DEV**.

   Note: *The search can be interrupted by pressing the back button.*
4. Select the desired device using the menu select control. Once connected the system will return to the previous selected audio source.

   Note: *Certain telephones may ask for a 4 digit Personal Identification Number (PIN). In this case, enter 4 zeros ('0000').*

Note: *The telephone will re-pair automatically whenever the audio system is switched on. If it fails to reconnect, follow the pairing procedure to pair the telephone manually.*

CHANGING THE CONNECTED PHONE
