3. Release the bonnet support stay.
4. Fit the support stay into the slotted hole in the underside of the bonnet.

CLOSING THE BONNET

1. Take hold of the support stay and lift the bonnet slightly.
2. Fix the support stay into its retaining clip on the bonnet locking platform.
3. Lower the bonnet, allowing it to drop the last 30cm (12 inches). Check that the catch is fully engaged. The front edge of the bonnet should be free of movement.
