

Reset the misfuel protection device as follows:

- Insert the reset tool (with the teeth uppermost) as far as it will go into the filler neck.
- 2. Locate the teeth by pushing down the top of the reset tool.

FUEL CONSUMPTION

The fuel consumption figures shown below have been calculated using a standard testing procedure (the new EC test procedure from Directive 99/100/EC), and produced in accordance with The Passenger Car Fuel Consumption (Amendment) Order 1996.

Under normal use, a vehicle's actual fuel consumption figures may differ from those achieved through the test procedure, depending on driving technique, road and traffic conditions, environmental factors, vehicle load and condition.

- 3. With the top of the tool pressed down and the teeth engaged, slowly pull the tool out of the filler neck to reset the device.
- ()

Do not twist the device, once the teeth have engaged.

Note: The yellow part of the protection device should no longer be visible in the filler neck.

Return the reset tool to the luggage compartment.
