

At this point, the first time user should set up personal preferences in the **Nav set-up** area. These settings are applied whenever navigation is used.

MAIN MENU

E141771

- More...:** Displays the other Nav menu screen.
- Cancel guidance:** Cancels current route guidance.
- Destination entry:** Provides a choice of options for entering a destination.
- Previous destination:** Displays previous destinations entered.
- Display/Hide POI:** Turns the POI (Point Of Interest) icons on the map on/off.
- When a destination is set, the Land Rover logo is replaced by a soft key which enables the last voice instruction to be repeated.
- Route voice guidance:** Allows the voice guidance messages to be turned off for the current journey. The soft key is highlighted while voice guidance is enabled.
- Quick POI shortcuts. This provides the option to quickly enter a destination of a local POI. The categories can be changed in the Navigation setup menu.
