

In addition, engine settings must not be tampered with. These have been established to ensure that your vehicle complies with stringent exhaust emission regulations. Incorrect engine settings may adversely affect exhaust emissions, engine performance and fuel consumption. They may also cause high temperatures, which will result in damage to the catalytic converter and the vehicle.

DANGER

Exhaust fumes contain poisonous substances which can cause unconsciousness and may even be fatal.

- Do not inhale exhaust gases.
- Do not start or leave the engine running in an enclosed unventilated area.
- Do not drive the vehicle with the tailgate open.
- Do not modify the exhaust system.
- Exhaust leaks should be repaired immediately.
- If exhaust fumes are thought to be entering the vehicle, have it investigated immediately.

Note: *Running out of fuel can result in a misfire. This can cause damage to the emission control system.*

SERVICE DATA RECORDING

Service data recorders in your vehicle are capable of collecting and storing diagnostic information about your vehicle. This potentially includes information about the performance or status of various systems and modules in the vehicle such as engine, throttle, steering or brakes.

In order to properly diagnose and service your vehicle, Land Rover and service and repair facilities may access vehicle diagnostic information through a direct connection to your vehicle.

CHANGING A BULB

WARNING

If the lighting has just been switched off, give the bulbs time to cool. Handling them when hot may cause personal injury.

NOTICE

Before attempting to replace a bulb, ensure that both the affected lamp and the vehicle's ignition are turned off. If the circuit remains live, a short circuit can occur which may damage the vehicle's electrical system.

NOTICE

Always replace bulbs with the correct type and specification. If you are in any doubt contact your Land Rover Retailer/Authorized Repairer for advice.

Not all bulbs are replaceable. The following bulbs can be replaced:

- Headlamps.
- Turn signals.
- Side lamps.
- Reversing lamp.
- Rear fog lamp.
- Some interior lamps.

All other exterior lamps and some interior lamps are LED (light emitting diode) lamps and can be replaced only by a Land Rover Retailer/Authorized Repairer.

All replacement procedures require the removal of components to gain access to the bulbs.
