Interior lights

INTERIOR LIGHTS LOCATIONS

- **1.** Sun visor lamps. Illuminate when the vanity mirror is opened.
- Map reading lamps. Move a finger close to (or touch) the relevant lens to switch on/off.

Note: If you are wearing gloves, it may be necessary to touch the lens to operate the lamps.

- 3. Front interior lamp. Illuminates when the doors are unlocked and extinguishes 60 seconds after all doors are closed, when the engine starts or when the vehicle is locked. Move a finger close to (or touch) the lens to switch on and off manually. Touch the lens for two seconds to deactivate/activate automatic illumination.
- **4.** Glove box lamp. Illuminates when the glove box is opened.
- Footwell lamps. Illuminate when the doors are unlocked and extinguish 60 seconds after all doors are closed, when the engine starts or when the vehicle is locked.
