

Select one of the options, and make changes as required (e.g. trace points can be edited, renamed, turned off or deleted).

COMPASS VIEW

Compass view is recommended while driving off road. Select the map screen then the compass view icon at the top of the screen.

The compass can be viewed as 'North is up' or 'vehicle is up'.

SL1912

North is up

- The compass North pointer will always be at the top.
- The vehicle position arrow in the center will point in the current direction of travel.
- The colored icon on the edge of the compass is the direction to the next way point or destination. It will always stay in that position.

Vehicle is up

- The vehicle position arrow in the center will always point up.
- The compass will rotate as vehicle direction changes. Current direction of travel is shown at the top.
- The colored icon on the edge of the compass will move with the compass.
