   - Alarm sensors.
   - Reverse-dip mirrors.
   - Easy entry/exit.
   - Audible lock warning
   - Winter wiper park.
   - Drive-away locking.
   - Headlamp delay.

5. Select to access the **Trip Computer** menu.

6. Select to access the **Display Settings** menu.The following features can be personalized:

   - Language for message center display.
   - Temperature units.
   - Appearance of the instrument panel.

7. Select to access the vehicle **Service Menu**. Can be accessed only when the engine is not running.

Note: Some personalization options may not be available in all markets.

WARNING AND INFORMATION MESSAGES

⚠️**WARNING**

Do not ignore warning messages, take appropriate action as soon as possible. Failure to do so may result in death or serious injury or serious damage to the vehicle.

If more than one message is active, each is displayed in turn for 2 seconds in order of priority.

Note: The message center messages and their meanings, are detailed where necessary within the appropriate subject sections.

USING THE TRIP COMPUTER

The computer memory stores data for a trip or series of trips until it is reset to zero.

The displayed information is for guidance only, as it can be affected by traffic, road and weather conditions.

Three independent memories are available, A, B and Auto. A and B memories can be reset independently, while the Auto trip will reset after every ignition cycle as the vehicle moves.

Trip computer information is displayed on the instrument panel.
