

With automatic transmission, selecting **N** from **R** will keep front and rear sensors active.

When objects are detected, the parking aid emits a warning tone which increases in frequency as the vehicle gets closer to the object and then becomes constant when the obstacle is within 12 in (300 mm).

Note: *The front parking aid provides an audible proximity warning when driving forwards and when reversing.*

PARKING AIDS DISABLED

The rear sensors are automatically disabled when a trailer with an approved electrical connector is connected or if a rear fitted accessory is within sensor range.

Note: *Trailers fitted with LED lights will not disable the rear parking aids sensors. When reverse gear is selected, the attached trailer will be detected as an obstacle.*

PARKING AIDS SYSTEM FAULT

If a system fault is detected, a long high-pitched tone will sound and the switch indicator will flash. A message will be displayed in the message center. Contact your Retailer as soon as possible.

REAR CAMERA

⚠️ WARNING

Always turn and look before reversing. It remains the driver's responsibility to detect obstacles and estimate the vehicle's distance from them when reversing.

When Reverse (**R**) is selected the rear camera provides a wide-angle rear view color image on the touch screen.

The rear camera display has priority over the Parking aids display.

To adjust the camera settings, select **Extra features**, from the home menu, select **Cameras** and then **Settings**.

The display also incorporates graphic overlays, indicating vehicle direction, width and proximity to surrounding objects.

SL2284

- A.** Solid line: The projected path based on current steering wheel position.
- B.** Dotted line: The safe working width of the vehicle (including exterior mirrors).
- C.** Tailgate access guideline: Do not reverse beyond this point if tailgate access is required.
- D.** Parking sensor activation: A colored area appears, to indicate which rear sensor(s) has been activated.
- E.** User option. Touch to enable/disable A, B & C.
- F.** User option. Touch to enable/disable D.

Parking aids

- G. User option. Touch to enable/disable Hitch Assist guidance lines.

NOTICE

Some overhanging objects or barriers which could cause damage to the vehicle, may not be detected by the camera.
