

Trace Points

If **Current Trace Point** is selected via **Route Options**, trace point icons are automatically placed along a route as it is traversed. They are useful to backtrack along the route if required.

Adjustments to trace point operation can be made via the same screen. After selecting the **Current Trace Point** option, changes can be made to any registered trace point route.

Select one of the options, and make changes as required (e.g. trace points can be edited, renamed, turned off or deleted).

COMPASS VIEW

Compass view is recommended while driving off road. Select the map screen then the compass view icon at the top of the screen.

The compass can be viewed as 'North is up' or 'vehicle is up'.

E142725

North is up

- The compass North pointer will always be at the top.
- The vehicle position arrow in the centre will point in the current direction of travel.
- The coloured icon on the edge of the compass is the direction to the next way point or destination. It will always stay in that position.

Vehicle is up

- The vehicle position arrow in the centre will always point up.
- The compass will rotate as vehicle direction changes. Current direction of travel is shown at the top.
- The coloured icon on the edge of the compass will move with the compass.
