

FOLDING THE REAR SEATS

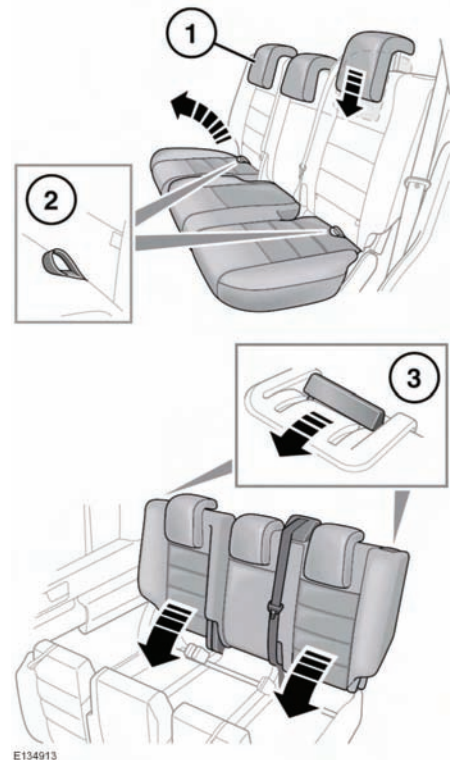

⚠ WARNING

Never allow passengers to ride in the cargo area. In a collision, people riding in these areas are more likely to be seriously injured or killed. Do not allow anyone to ride in any area of your vehicle that is not equipped for passengers. Be sure everyone in your vehicle is in a seat and using their seat belt properly.

⚠ WARNING

In a collision or sudden stop, unsecured objects could be thrown inside the vehicle striking and injuring occupants. Always properly store and secure cargo and other objects in the vehicle.

FOLDING THE SEATS (5 seat vehicle)

Note: Some 5-seat models are fitted with the same type of seat as the 7-seat model.

The split fold rear seat can be folded completely to accommodate large loads, or partially to accommodate large loads and still retain seating for passengers.

To fold part or all of the seat:

1. Fully lower the head restraints.
2. Pull the strap on the required cushion(s), to raise to the vertical position.
3. Pull the seat backrest release lever(s), then lower the backrest(s) until locked into place.
