

UNDER HOOD COVERS - REMOVAL

E134967

1. Press the tabs to release the cover from the casing.

Note: Releasing the inboard tab on the front edge of the cover first will make it easier to release the remaining tabs.

2. Lift the front edge of the cover and slide forwards to remove.

UNDER HOOD COVERS - REFITTING

NOTICE

Before refitting the underhood covers, ensure that no pipes, cables or other items, have been trapped between the cover and casing.

1. Slide the rear edge of the cover under the rubber trim fitted to the scuttle panel.
2. Make sure the front edge of the cover is flush to the casing, and then press down until the cover clicks into place.

UNBLOCKING WASHER JETS

CAUTION

Do not operate the washer jets during unblocking or adjustment. Windshield washer fluid may cause irritation to the eyes and skin. Always read and observe the washer fluid manufacturer's instructions.

If a washer jet becomes blocked, use a thin strand of wire to unblock the jet by inserting the wire into the jet. Ensure that the wire is completely removed after unblocking. The washer jet position may also be adjusted by inserting the point of a needle into the jet and gently repositioning it.

CHANGING A BULB

NOTICE

Before attempting to replace a bulb, ensure that both the affected lamp and the vehicle's ignition are turned off. If the circuit remains live, a short circuit can occur which may damage the vehicle's electrical system.

NOTICE

Always replace bulbs with the correct type and specification. If you are in any doubt contact your Land Rover Retailer/Authorized Repairer for advice.

Note: In certain territories it is a legal requirement to carry spare bulbs. A replacement bulb kit is available as an approved accessory from your Land Rover Retailer/Authorized Repairer.
