

## CALIFORNIA PROPOSITION 65

### WARNING

Second warning statement

### ⚠ WARNING

Battery posts, terminals and related accessories contain lead and lead compounds. Wash hands after handling.

## BATTERY WARNING SYMBOLS

Do not allow open flames or other sources of ignition near the battery, as the battery may emit explosive gases.

Make sure that when working near or handling the battery, suitable eye protection is worn, to protect the eyes from acid splashes.

To prevent risk of injury, do not allow children near the battery.

Be aware that the battery may emit explosive gases.

The battery contains acid which is extremely corrosive and toxic.

Consult the handbook for information, before handling the battery.

## BATTERY CARE

### ⚠ DANGER

If swallowed, battery fluid can be fatal. Seek medical assistance immediately.

### ⚠ WARNING

Do not allow battery fluid to contact your skin or eyes. It is both toxic and corrosive which can result in severe injuries. If battery fluid comes into contact with your eyes, skin or clothes, you should remove the affected clothing and flush the skin/eyes with plenty of water. Seek medical assistance immediately.

### ⚠ WARNING

Do not connect any 12 volt equipment directly to the battery terminals. Doing so may cause a spark, which can result in an explosion.

### ⚠ WARNING

The cell plugs and vent pipe must be in place at all times when the battery is connected to the vehicle. Make sure that the vent pipe is clear of obstructions and not kinked. Failure to do so may cause a pressure build up in the battery, resulting in an explosion.

### ⚠ WARNING

Do not expose the battery to an open flame or spark as the battery produces explosive, flammable gas.

### ⚠ WARNING

Never jump start, boost charge, or try to start a vehicle with a frozen battery. Doing so can result in an explosion.

### ⚠ WARNING

Remove all metal jewelry before working on or near the battery, and never allow metal objects or vehicle components to come into contact with the battery terminals. Metal objects can cause sparks, and/or short circuits, resulting in an explosion.
