

### SEAT BELT REMINDER

Beltminder commences when the vehicle is in motion and the driver's belt is unbuckled. Dependent on the market, the warning indicator in the Instrument panel illuminates and an audible chime sounds. The visual and audible warnings applicable to the Beltminder feature are market dependent to meet individual market requirements. The warning signals given may also change depending on whether the vehicle is stationary or when the vehicle's speed exceeds a predetermined threshold. In certain markets, the Beltminder feature also applies to the front passenger seat.

**Note:** *Objects placed on the front passenger seat may activate the seat belt reminder warning chime and indicator. It is recommended that any objects placed on the front passenger seat are secured using the seat belt.*
