## FOLDING AND RAISING THE REAR SEATS

⚠ **Always make sure that objects carried within the vehicle are secured properly.**

⚠ **Never allow passengers to travel in the load space under any circumstances. All vehicle occupants should be seated correctly, and should wear a seat belt at all times when the vehicle is in motion.**

⚠ **Make sure that when the seat back is raised, the locking mechanism is fully engaged. If the seat backs are not fully locked in place, red markers will be visible around the seat back buttons.**

The split folding rear seat can be folded completely to accommodate large loads, or partially to accommodate large loads and still retain seating for passengers.

Fold part or all of the seat as follows:

1. Pull the strap on the required cushion(s), to raise to the vertical position.
2. Fully lower the head restraints.
3. Press the seat back release button(s), then lower the seat back(s) until locked into place.
