Before making use of the vehicle's **Bluetooth**® wireless technology phone system, your **Bluetooth**® wireless technology device must be paired and connected to the vehicle's system. This is done using 1 of 2 methods; via your phone to the vehicle or from the Touch screen to your phone. If one of these methods is not successful, try the other option.

Each time the ignition is switched on, the system will attempt to connect with the last connected phone.

As mobile phones have a wide range of audio and echo characteristics, it may take a few seconds for the vehicle's system to adapt and deliver optimum audio performance. To achieve this, it may be necessary to reduce the in-vehicle volume and ventilation fan speed slightly.

TELEPHONE SAFETY

Switch off your telephone in areas with a high explosion risk. This includes filling stations, fuel storage areas or chemical factories, as well as places where the air contains fuel vapour, chemicals or metal dust.

Always stow your mobile phone securely.

The functioning of cardiac pacemakers or hearing aids may be impaired when the phone is in use. Check with a doctor or manufacturer whether any such devices you or your passengers are using, are sufficiently protected against high-frequency energy.

The Health Industry Manufacturers' Association recommends that a minimum separation of 15 centimetres (6 inches) is maintained between a wireless phone antenna and a pacemaker, to avoid potential interference with the pacemaker. These recommendations are consistent with the independent research by, and recommendations of, Wireless Technology Research.

TELEPHONE COMPATIBILITY

Please refer to the Owner's section of the Land Rover website at **www.landrover.com**, for a list of compatible phones.

Note: *The **Bluetooth**® wireless technology devices listed, have been tested for compatibility with Land Rover vehicles. Performance will vary, based on the phone's software version, battery condition, coverage, and your network provider. Phones are warranted by their manufacturer, not Land Rover.*

PAIRING AND CONNECTING USING THE PHONE

Note: *The process of pairing and connecting your phone with the vehicle, using the mobile phone, will vary depending on the type of mobile phone used.*

1. Switch the ignition on and make sure the Touch screen is active.
2. From the **Home menu**, select **Phone**.
3. A menu will appear. Select **Search new**.
4. Select the **Device to vehicle** option.

   Note: *The vehicle's **Bluetooth**® wireless technology system is discoverable for only 3 minutes.*
5. Using the mobile phone, search for **Bluetooth**® wireless technology devices. On some phones, this is referred to as new paired device. See your phone's operating instructions for further information.
