

- Now enter the road name. Once sufficient letters have been entered, touch **OK** or **List** to display all the possible roads.
- Select the road you require. Enter the house number of the address (if known) and then touch **OK** to confirm.
- If the house number is not known, select **OK**; the end of the road is then used as the destination.
- The map screen showing the selected destination details is displayed. Touch **GO** to calculate the default quick route, or **Review route** for alternative routes.
- Touch **GO** to start the journey.

START GUIDANCE

After selecting **Review route**, the system will calculate the route.

- Touch **3 Routes** to display a choice of 3 different route options on the map. The roads on the map are drawn in 3 different colours to highlight each route. EcoRoute helps you find the most fuel-efficient route available. A display of 3 leaves indicates the most fuel-efficient route.
- Select route **Quick**, **Short** or **Alt route** by touching the respective box displayed on the right side of the map.
- Touch **Change Route** followed by **Route preferences** to change the route settings.
- When you have made your selection, if any, touch **GO**.

***Note:** As you approach a junction, in addition to the voice guidance, an inset on the map will display an enlarged view of the junction.*

AVOID POINTS

When calculating a route, an area to avoid can be set and stored.

- From the **Nav menu**, touch **More....**

- Select **Stored locations**.
- Select **Avoid points**.
- Select **Add**.
- Select the location of the area to avoid from the **Destination entry** menu. Touch **Ok** to activate the view where the size of the area to avoid can be set. The size of the area can be adjusted by using the '+' and '-' symbols.
- Touch **Ok** to activate the area to avoid.
- Touch **Ok**, the area to avoid is now set and stored.

To edit or delete an area to avoid from the stored list:

- From the **Nav menu**, touch **More....**
- Select **Stored locations**.
- Select **Avoid points**.
- From the sub-menu, select **Edit** or **Delete**.

EASY ROUTE

In **Route options**, **Easy Route** can be turned **On** or **Off**.

When **On** is selected, **Easy Route** changes the calculation parameters of **Alt**. (Alternative route), in order to reduce:

- Junctions.
- Turns.
- Turns that cross traffic.
- The priority of minor roads.
- Complex junctions and manoeuvres.

LEARN ROUTE

In **Route options**, **Learn Route** can be turned **On** or **Off**.
