Pressing the i soft key next to any command shows alternative ways of saying the same command.

- Voicetags: View the categories. Select a category to manage the voicetags for the chosen system. See 75, VOICE SETTINGS.
- **Operating guide**: View brief Voice system instructions. Select **Voice tutorial** for more detailed instructions (cancel via the displayed pop-up or by pressing and holding the voice button).
- **Preferences**: Select to alter the following settings:
 - Voice profile: The voice system can be trained to have a greater recognition of a particular voice or accent. The default setting is Standard. To build a voice profile for either User 1 or User 2, it is necessary to complete a training program first.

To complete the training for the first time, select either **User 1** or **User 2** and follow the on-screen and audible instructions.

- Voice feedback: Select On/Off.
- Feedback volume: Adjust using the +/buttons. It is not possible to reduce the volume to zero.
- Voice training: Select to access the voice system training program, designed to enable the system to better recognise the vocal characteristics of a user.
 Select User 1 or User 2 and follow the on screen and audible instructions. See 170, VOICE TRAINING

The training session can be cancelled at any time by touching the on-screen pop-up or by pressing and holding the Voice button on the steering wheel. See **169**, **USING VOICE CONTROL**.

SELECTING VALET MODE

While in Valet mode, the luggage compartment and glovebox are locked, preventing access to unauthorised persons, for example a parking attendant. The Touch screen is also inhibited, preventing access to telephone numbers or navigation addresses.

Each time Valet mode is used, a Personal Identification Number (PIN) must be entered. To select Valet mode:

- 1. From the Home menu, select Valet.
- 2. Enter a memorable 4 digit PIN. You will be prompted to confirm the PIN. If you wish to cancel the PIN, select **Delete**. If the PIN is cancelled, or incorrectly entered, you will be prompted to enter the PIN again.
- 3. Valet mode activated is displayed to indicate that a PIN has been accepted.

The luggage compartment and glovebox are now securely locked in Valet mode and the Valet mode On screen is displayed.

DESELECTING VALET MODE

- 1. When you re-enter the vehicle, select Valet.
- 2. Enter your memorable 4 digit PIN and touch the **OK** button.

Valet mode deactivated is displayed to indicate that a PIN has been accepted.

- The luggage compartment and glove box will return to the previously set security requirement.
- The Touch screen will be enabled.

Note: If the PIN is forgotten, Valet mode can only be deactivated by your Dealer/Authorised Repairer.
