

## Standard pick-up

To unlatch the tailgate:

1. Slide the latch plates up to their highest position.
  2. Pivot the latch plates down through 90 degrees.
  3. Pull the tailgate over both the latch plates.
- Reverse the procedure to close the tailgate.

## High capacity pick-up

1. Lever the latches outwards, toward the sides of the vehicle.
2. Hold the latches open and carefully lower the tailgate.

Reverse the procedure to close the tailgate.

## EMERGENCY KEY ACCESS (EKA)

In the event of a remote control failure, follow the procedure to enter a unique four digit code. This will disarm the alarm system and re-mobilise the engine.

The code number will be recorded on the Security card. Do not leave this card in the vehicle.
