

Note: If you are travelling in a different country, a call will still connect, however the vehicle's location and details may not be automatically sent.

INCONTROL SECURE

InControl Secure provides a stolen vehicle tracking service. In the event that the vehicle has been tampered with, or moved without your consent, you will be contacted by the Secure operating centre. Alternatively, use the InControl Remote Smartphone App, or the phone number on the InControl website, to contact the Secure operating centre.

When the vehicle is being serviced or repaired, InControl must be set to Service mode. This can be done by using the InControl Remote Smartphone App, or via the InControl website.

If the vehicle is being transported, InControl must be set to Transport mode. Again, this can be done by using the InControl Remote Smartphone App, or via the InControl website. Failure to set Service mode or Transport mode could trigger a false theft alert.

Note: When set, Service or Transport mode should be updated every 10 hours, or more frequently if required.

Note: For further information, visit the InControl section of www.landrover.com.

INCONTROL APPS

InControl Apps allows you to view and operate approved Smartphone Apps through the vehicle's Touch screen.

Before using InControl Apps, you will need to download the InControl Apps Smartphone App. For Apple's iPhone, this can be downloaded from the Apple App Store. For Android phones, this can be downloaded from Google play.

Note: Not all Smartphones are compatible with InControl Apps. Check the list of compatible Smartphones and supported Apps in the Owner's section of www.landrover.com.

1. InControl Apps USB socket.

To initiate InControl Apps, connect your Smartphone, using your Smartphone's USB cable, to the USB port located in the centre console. The InControl Apps USB port is identified by a yellow border.

Once connected, you can navigate to the InControl Apps feature on your vehicle and any compatible Apps will be displayed on the vehicle's Touch screen. You can now open and operate these Apps using the vehicle's Touch screen.

Note: To establish a connection to the vehicle, the Smartphone must be unlocked and connected to the USB port.

Note: iPhone is a trademark of Apple Inc, registered in the U.S. and other countries.
