

WARNING: Child restraint anchorages are designed to withstand only those loads imposed by correctly fitted child restraints. Under no circumstances are they to be used for adult seat belts, harnesses or for attaching other items or equipment to the vehicle.

Always follow the child seat or restraint system manufacturer's instructions when fitting tether straps.

When fitting a child seat or restraint system, always pass the tether strap over the top of the seatback and beneath the head restraint.

If a child seat or restraint system is to be fitted to the centre seating position, the centre armrest must be in the stowed position (folded into the seat).

INSTALLING TETHER ANCHORAGE CHILD RESTRAINTS

1. Install the child restraint securely in one of the rear seating positions.
2. Pass the tether strap over the seatback and beneath the head restraint.
3. Attach the tether strap hook to the tether anchor point on the back of the seat. Make sure that the tether strap hook is facing the correct way (see illustration).
4. Tighten the tether strap, according to the manufacturer's instructions.
