7. **ON**: Rear wiper intermittent operation. Frequency increases with vehicle speed.
8. Rear window wash/wipe: Press and release to operate the rear washer and wiper. The wiper will operate in a set cycle, to minimise drips when the button is released. If more washer fluid is required, push and hold the button.

   Note: *When Reverse (**R**) gear is selected and the front wipers are operating, the rear wiper will activate.*

   Note: *The rear wiper will not operate while the tailgate is open.*

Drip wipe on the windscreen can be enabled/disabled by a Dealer/Authorised Repairer.

Vehicles without rain sensor fitted:

1. Intermittent wipe: The time delay between wipes can be adjusted by rotating the collar (**2**).

Make sure the wipers are switched off before entering a car wash. If the wipers operate during the car washing process, damage may occur to the wiper mechanism.

2. Rotate the collar to adjust the time delay between wipes when position (**1**) is selected. The higher the setting, the more frequently wipes occur.

   Note: *Wipe frequency will increase with vehicle speed.*

3. Low speed continuous wipe.
4. High speed continuous wipe.
5. Single wipe of the windscreen, or hold down for further continuous wipes.
6. Windscreen wash/wipe: Pull and release to operate the front washers and wipers. The wipers will operate for 2 further wipes after the control is released. After a few seconds, a drip wipe will clear any residual washer fluid from the windscreen. If more washer fluid is required, pull and hold the control position.
7. **ON**: Rear wiper intermittent operation. Frequency increases with vehicle speed.
8. Rear window wash/wipe: Press and release to operate the rear washer and wiper. The wiper will operate in a set cycle, to minimise drips when the button is released. If more washer fluid is required, push and hold the button.

   Note: *When reverse (**R**) gear is selected and the front wipers are operating, the rear wiper will activate.*

   Note: *The rear wiper will not operate while the tailgate is open.*

Drip wipe on the windscreen can be enabled/disabled by a Dealer/Authorised Repairer.

SPEED-DEPENDENT MODE

Front wipers

If the vehicle's speed drops below 8 km/h (5 mph) with the wipers operating, the wipers will switch to the next lowest speed. When the vehicle's speed increases to over 8 km/h (5 mph), the original wiper speed setting will be restored automatically.

Vehicles without a Rain sensor fitted will also increase the frequency of the intermittent front wipe when the vehicle's speed increases.

This feature can be enabled/disabled by your Dealer/Authorised Repairer.
