Do not attempt to fit ISOFIX restraints to the centre rear seating position. The anchor bars are not designed to hold an ISOFIX restraint in this position.

If the restraint is not correctly anchored, there is a significant risk of injury to the child in the event of a collision or during emergency braking.

Note: *Always refit a removed head restraint after the child restraint is removed. See* ***21, REAR HEAD RESTRAINTS****.*

Note: *Ages given are approximate. In case of doubt, the child's weight, not age, should be used when considering an appropriate child seat.*

Note: *The information contained in the table may not be applicable to all countries. If you are in any doubt regarding the type and fitment of child seats, seek advice from your Dealer/Authorised Repairer.*

Note: *ISOFIX anchorages are provided for second row outer seating positions. ISOFIX child restraints should be securely attached, following the manufacturer's instructions, at these locations only.*

TETHER ANCHORAGE POINTS

Your vehicle is equipped with anchorage points on the back of the second row seat frames. These should be used to attach straps from child seats or restraint systems.

Note: *A tether anchorage is provided for the centre seat position. Do not use this anchor position with an ISOFIX child seat.*
