

SERVICE REQUIREMENTS

Routine services must be carried out throughout the life of the vehicle.

Some models have a Service Interval Indicator in the instrument panel. When a service is required, a **SERVICE** message will illuminate in the instrument panel when the starter switch is pressed. Depending on the type and style of driving that the vehicle is subjected to, the indicator may display a service message at a shorter distance than shown in the Service Interval Plan.

An **OIL** indicator will illuminate if an interim oil check is required.

Service intervals shown in the plans are only nominal. The vehicle's Message centre will display actual distances to the next service.

On completion of a service, the Message centre countdown feature will be reset.

Not all markets have the Service Interval Indicator activated. In these markets the relevant Service Interval Plan should be used as the guide to regular servicing. Services must be carried out at the distance or time based interval (whichever occurs first) shown in the Service Interval Plan. References **A** and **B** in the interval plans, relate to the type of service required at that distance/time.

Arduous operating conditions servicing schedules are not displayed in the Message centre.

Note: *The Service Interval Indicator is de-activated on the Armoured Range Rover derivative - refer to Service Interval Plan.*

SERVICE CONTENT

The precise content of each service will vary from model to model and also according to the age of the vehicle, the distance it has travelled and whether an arduous service is applicable.

The service operations applicable to your vehicle are listed on the Maintenance Check Sheet used by your Dealer/Authorised Repairer.

Note: *Some service providers may use their own check sheet with differing levels of service operations. It is usual that the highest level will match Jaguar Land Rover Limited requirements.*

OWNER MAINTENANCE

In addition to the routine services and inspections, a number of simple checks must be carried out more frequently.

These owner checks are listed in the **Maintenance** and **Fluid level checks** sections of your Owner's Handbook. Fluid specifications and capacities are also listed in the **Technical specifications** section.

FLUID REPLACEMENT

Brake fluid and engine coolant (antifreeze and water solution) must be completely replaced at specific intervals.

Your Dealer/Authorised Repairer will replace the fluids at the appropriate scheduled service.

Note: *Replacement of fluids is subject to extra labour and material cost.*

Some brake system components may also need to be replaced. The intervals will be significantly longer than the regular service intervals and will be indicated on the Maintenance Check Sheet.

ARMOURED VEHICLES

These vehicles require servicing every 10,000 km or 6 months.

ARDUOUS OPERATING CONDITIONS

When a vehicle is used in arduous conditions, more frequent attention must be paid to servicing requirements. Even **daily** attention may be necessary to make sure that continued safe and reliable operation of the vehicle is maintained.

Failure to adhere to the recommended service schedules may result in premature engine wear or damage and may invalidate the warranty. Some markets may have unique service requirements. Check with your Dealer/Authorised Repairer or Importer.

Arduous driving conditions include:

- Frequent driving in dusty and/or sandy conditions.
- Frequent driving on rough and/or muddy roads.
- Frequent wading.
- Frequent driving at high speeds in high ambient temperatures above 50°C.
- Frequent driving in severe cold weather below -40°C.
- Frequent driving in mountainous conditions.
- Frequent driving of short journeys.
- Frequent trailer towing.
- Driving in areas using road salt or other corrosive materials on the driving surface.
- Frequent use of low quality fuels.

REPLACEMENT SERVICE RECORD & WARRANTY BENEFITS

When the final Service Record entry has been completed, you can order a replacement book via the Internet at:-

www.landroverliterature.com or from a Land Rover Dealer/Authorised Repairer. This will enable you to continue keeping an accurate record of your vehicle's service history. An accurate and verified service history will be useful if you want to sell the vehicle.

The replacement book is visibly different to the original version. The front cover and title page have the revised title and text on page 2 explains why the replacement version is being used. Each internal page displays the caption 'REPLACEMENT'.

Original style books are not available for purchase. This is a measure taken to counteract fraudulent attempts to recreate a vehicle service history.

Remember to transfer the details recorded on the Vehicle Details page, to your replacement book.

SERVICE RECORD STAMPS

The Service Record pages provide a record of the routine services carried out on your vehicle.

This information is important and could affect your warranty entitlement. Always make sure that the appropriate record slip is stamped and signed on completion of each service.

SERVICE INTERVAL PLAN - 15 MODEL YEAR ONWARDS

Applies to the following countries.

Afghanistan, Algeria, Azerbaijan, Bahrain, Egypt¹, Iraq¹, Jordan, Kuwait, Lebanon, Libya, Morocco, Oman, Pakistan¹, Palestine, Qatar, Saudi Arabia, Sudan, Syria¹, Tunisia, United Arab Emirates, Yemen.
