LIMP-HOME MODE

Note: *The driver should be aware that the vehicle's performance will be reduced and must take this into account when driving. Use of the gear shift paddles will be disabled. In this event, seek qualified assistance as soon as possible.*

In the event of an electrical or mechanical failure, transmission operation will be limited. **P**, **R**, **N**, **D** and **S** may still be used to enable the vehicle to be driven to a safe area.

Some faults cause the selector to be locked in position until the ignition is switched off. If the selected gear flashes, it signifies that the driver's request cannot be engaged. Re-select **N** and repeat the attempt.

If the transmission is still unable to select the requested gear, contact your Dealer/Authorised Repairer.
