

AIRBAG SERVICE INFORMATION

 Do not attempt to service, repair, renew, modify, or tamper with, any part of the SRS. This includes wiring or components in the vicinity of SRS components. Doing so may cause the system to trigger, or render the system inoperative.

 Do not use any electrical test equipment or devices in the vicinity of SRS components or wiring. Doing so may cause the system to trigger, or render the system inoperative.

All of the following operations should be carried out only by a Dealer/Authorised Repairer, or suitably qualified person:

- Removal, or repair, of any wiring or component in the vicinity of any SRS components.
- Fitment of electrical, or electronic, equipment and accessories.
- Modification to the front or sides of the vehicle's exterior.
- Attachment of accessories to the front or sides of the vehicle.

DISABILITY MODIFICATIONS

Occupants with disabilities which may require modification of the vehicle, must contact a Dealer/Authorised Repairer before any modifications are made.

PEDESTRIAN AIRBAG

E161333

If your vehicle is fitted with a Pedestrian airbag, it is located beneath a panel in the bonnet (1).

To verify that a Pedestrian airbag is fitted to the vehicle, the word **AIRBAG** is located in 2 places on the rear of the panel (2).

In the event of a frontal impact with a pedestrian, sensors in the front bumper react and the pedestrian airbag inflates. The sensors will operate at speeds between 25 to 50 km/h (15.5 to 31 mph).

If there is a fault with the Pedestrian airbag, the message **Check Pedestrian System** will appear in the message centre. In this event the vehicle should be taken to a Dealer/Authorised Repairer to have the fault investigated.

Do not carry out any modifications to the front bumper, or fit any accessories to the bumper or the bonnet, that has not been approved by Jaguar Land Rover, as this could affect the operation of the sensors and/or the airbag.

If damage of any kind is sustained to the front bumper, this should be inspected by a Dealer/ Authorised Repairer as soon as possible.

For instructions on what to do after a collision where the pedestrian airbag has deployed. See **244, AFTER DEPLOYMENT OF THE PEDESTRIAN PROTECTION SYSTEM.**
