California Emission Control System Warranties are also applicable to vehicles registered in certain other states. Specific states and vehicle applicability are specified in this section.

### **YOUR WARRANTY RIGHTS AND OBLIGATIONS**

The California Air Resources Board and Jaguar Land Rover North America, LLC, are pleased to explain the emission control system warranty on your 2015 Model Year Land Rover vehicle. In California, new motor vehicles must be designed, built and equipped to meet the State's stringent anti-smog standards. Jaguar Land Rover North America, LLC, must warrant the emission control system on your vehicle for the periods of time listed in this section, provided there has been no abuse, neglect, or improper maintenance of your vehicle.

Your emission control system may include parts such as the fuel injection system, the ignition system, the catalytic converter, and engine computer. Also included may be hoses, belts, connectors and other emission related assemblies.

Where a warrantable condition exists, Jaguar Land Rover North America, LLC, will repair your vehicle at no cost to you. Repairs include diagnosis, parts and labor.

The service and replacement intervals for these items are indicated in the maintenance schedules in the Owner's Manual and Passport to Service maintenance section.
